**Rheumatism and Neuralgia**

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so do their patients. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—so say those who have used it.

"Having been troubled with rheumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." FRANK CAROLL, Eureka, Nevada.

"Paine's Celery Compound has been a God-send to me. For the past two years I have suffered with neuralgia of the heart, doctor after doctor failing to cure me. I have now taken nearly four bottles of the Compound, and am free from the complaint. I feel very grateful to you." CHAS. H. LEWIS, Central Village, Ct.

**Paine's Celery Compound**

"I have been greatly afflicted with acute rheumatism, and could find no relief until I used Paine's Celery Compound. After using six bottles of this medicine I am now cured of rheumatic troubles." SAMUEL HUTCHINSON, So. Cornish, N. H.

**Effects Lasting Cures**

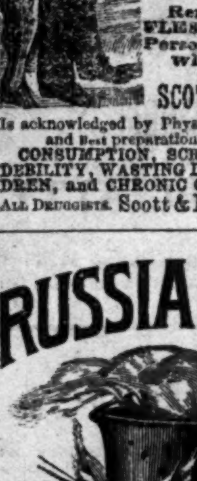

Paine's Celery Compound has performed many other cures as marvelous as these,—copies of letters sent to any address. Pleasant to take, does not disturb, but aids digestion, and entirely vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?

## FACTS ABOUT MARBLE.

**How the Rugged Rock Is Converted Into Polished Variegated Slabs.**

Few people who stand before a finished monument or mantel, or even a soda water fount in a drug store, and admire the highly-polished variegated marble, says the New York *Commercial Advertiser*, realize the amount of time and labor that has been expended in the evolution of the completed structure from the raw materials. The highly-colored varieties are found chiefly in Italy, Spain, France, Belgium, or Portugal, though sometimes in Mexico or Algeria. The white stone is common in this State. Among the marbles which most frequently enter into composition of fancy apparatus are:

Italian—white, vernal and clouded, with bluish gray; Etrurian—pure porcelain white, Saragossa shaded cream white, veined with dark gray; Algerian and Mexican onyx—translucent white, veined with opaque white, yellow, or pink; Bardiglio—delicately veined gray Sarrancolin—shaded pearl gray, dashed with carnelian red; Sienna—golden yellow, clouded with white and veined with olive and brown; Tennessee—chocolate, frosted with white; Genoa—green; Brocatel—richly mottled, yellow, purple, brown, white and red; Violet Brocatel—purple, mottled and veined with golden yellow; Lisbon—reddish; Gryotte of France—deep red, shaded with red and brown; Gryotte Fleure—purplish red, mottled with pearl white; Warwick—brilliant red, veined with white; Belgian—velvety black; African—yellow, with purple veins; Rouge Antique—deep red; Knoxville—grayish pink, with light blue veining.

The colored marbles retain their freshness longer and can be repolished after many years' use.

The marble is extracted from the quarry in oblong blocks cut out by means of wedges.

Except when designated for statuary or building purposes the first thing the manufacturer does is to place the block of marble under a gang-saw in order to saw it into slabs. The gang-saw consists merely of a series of parallel saws, to which an oscillating motion is imparted while they are kept fed with sand and water. When they come from the gang-saw the slabs are generally about 1⅛ inches thick, so that they may dress to one inch when rubbed on both sides. The slabs are then inspected. To the inexperienced eye the rough slabs are much alike, and while the good qualities of the slab are only fully brought out under the polisher's mop, the imperceptible defects are also magnified very much. It is therefore necessary to detect flaws before the polishing begins.

The perfect slabs are cut into required lengths by a rip-saw and passed to the rubbing bed to be rubbed smooth. The rubbing bed consists of a solid horizontal cast-iron wheel about four inches thick and usually about twelve or thirteen feet in diameter. This wheel is fixed in a vertical shaft which revolves on two chilled steel friction balls, placed one upon the other, and inclosed in a cast-iron box which is kept well supplied with oil. The box itself is firmly imbedded in a stone foundation, and the entire structure is made as true and as steady as possible. It requires a great deal of care and attention to keep the rubbing-bed perfectly true; and it is sometimes necessary to rub it down for a whole week with bluestone in order to keep the surface smooth.

When the slab leaves the rubbing-bed it is comparatively smooth, and is ready to be cut out by hand into its final shape. It then passes into the hands of the polishers, who are provided with rubbers made of ordinary ticking rolled up into a mop of about three or four inches in diameter and sewed firmly through and through. With these they rub the surface of the slab back and forth, hour after hour, until they bring out the high polish so much admired. The marble is first rubbed with grit, then with pumicestone, and then with hone. On some white marbles oxalic acid is then used, and finally the finishing touches are given with putty of zinc. On colored marbles emery and French putty, prepared with sulphur and lead, are used. It is estimated that each square foot of surface polished costs one man four hours of steady work.

In gilding, four or five gold leaves are blown into a cushion made of a board covered with chamois. The gilder cuts it into strips a quarter of an inch wide, lays it on the marble with his "tip," then "cottons" it on, after which he rubs it down with a fine hair brush in order to smooth the laps and form an even and continuous surface. He then cleans off the edges with cuttle fish. Great dexterity is acquired by gilders, and they seem to handle with the greatest ease the delicate gold leaf which the slighest breath of air is sufficient to carry off, and which in inexperienced hands is utterly unmanageable.

The variegated, dark-colored marbles are most expensive, but they are also generally harder and more durable, as well as more beautiful, than those that are white or light colored. The common white marble, which is not so valuable from an ornamental point of view, has a separate value as being the best basis for the production of carbonic acid gas for the manufacture of "soda" water and all other carbonated beverages, and a large trade is done in it for this purpose. It has succeeded whiting and bicarbonate of soda in this respect on account of its cheapness. A barrel of good marble-dust, weighing about 400 pounds, costs $1.25. An equal quantity of whiting costs about $3.50, and produces no more gas. A like weight of bicarbonate of soda produces a double amount of gas, but costs about $7.

As far as chemical composition is concerned marble and whiting are analogous—both are carbonates of lime, and when equally pure both contain the same amount of carbonic acid. Whiting, however, is rarely, if ever, as pure as marble. It consists chiefly of the remains of extremely small animalcules.

**Fire-Proof Building Material.**

The *Real Estate Record* says that fire trains show that porous terra cotta bricks and blocks best resist fire, water and frost. Next to these in the order of fire-resisting qualities comes concretes and burned clay work. In the best work done, the iron work is incased in porous terra cotta, tile or brick work in roof, floor, and tile construction. The hollow tiles are faced with vitreous tile, slate or any good weather-proof coating, or with a single thickness of brick. Iron and steel framework, incased in fire-proof materials, gives the best possible results. There is a growing preference for light porous walls of hollow material protecting an iron or wooden framework. Massive and heavy walls of brick or stone will do for architecture, but they are not as much of a mechanical necessity as they were regarded a few years ago.

**A Gone Case.**

A quack doctor recently removed to Austin, Texas, and is doing a flourishing business. He was employed to attend old Mr. McGinnes, who is in a pretty bad way with typhoid fever.

"Well, Doctor, how is he coming on?" asked a member of the family.

"There is still hope to save him if he lives until to-morrow, but if he dies in the meantime he is a gone case."

A WAR that would come to real blows between the United States and one or more of the European powers would not be a bad thing in many respects. It would mean the speedy remonetization of silver; it would mean the swift regeneration of our navy; it would, we think, mean the fighting of Northern and Southern men side by side as at Buena Vista and Chapultepec—the reuniting of the country once more. Of course, says the Salt Lake Tribune, there would perhaps be a banging of our sea coast cities and a mighty loss on that score, but would not the nation or nations at war with us fade from the face of the ocean? and would it not be almost worth a war to have the old relations restored between the North and the South? Finally, the restoration of silver would be worth quite $200,000,000 per annum to us, and a reasonably stiff war could be carried on for $200,000,000 per annum.

SENATOR OSBURN has introduced a bill to authorize the County Commissioners to issue bonds to the amount of $30,000 for the construction of sewers in the town of Reno, for the maintenance of a fire department and for other town purposes. A public meeting has been called for the purpose of hearing from the County Commissioners on the subject and ascertaining, if possible, just what is wanted. People are very chary about mortgaging their property without knowing more about it.

IT is stated that Col. Albert E. Buck of Georgia is to represent the South in President Harrison's cabinet. Col. Buck is a native of Foxcroft, Maine; was graduated from Waterville College in 1859, and became principal of Lewiston high school. He entered the army in 1861 as Captain in the 13th Maine regiment, was Lieutenant Colonel of a colored regiment, was breveted colonel, and after the war settled in Alabama and represented that State in the 41st Congress.

AN exchange wisely observes: "Free reading-rooms, made both beautiful and comfortable, where books and papers could be read and innocent games could be indulged in by homeless or worse than homeless boys, should be in every city. They would attract hundreds of boys from dens of vice, and bring them under civilizing and moral instruction. Reading-rooms are cheaper than police stations and jails."

By the way, how about our reading-room?

AN unexpected development of bourbonism is being shown in the Legislature by certain members who are opposed to the employment of lady clerks. It is more than an even bet that there is not a woman clerk in either body of the present Legislature who is not the intellectual superior of any member who is opposing their employment.

QUEEN VICTORIA has issued a brand new edict authorizing the discontinuance of low-necked dresses at her "drawing-rooms," and ladies may now appear before Her Majesty in decent costume without incurring the royal displeasure.

THERE are already, says a New York paper, "over 30,000 passages engaged for Europe the coming season." Americans are the greatest travelers upon the globe, and spend more money in travel than all the rest in the world.

THE Cleveland Leader rises to remark that John Wanamaker spends $5,000 a week for advertising, which shows that he has more sense than many men who have become Cabinet officers.

THE Maine Legislature is being flooded with petitions favoring municipal suffrage for women. Many of the signers are Quaker-cases.

SAMOA, in the soft accent of the South, has an inviting peaceable pronunciation; down East it is given with a slashing twist that gives it a war-like "Some more."

### Bismarck Means Business.

AUCKLAND, Jan 31.—Advices from Samoa state that the German officials have given notice that all vessels arriving there will be searched for articles, contraband of war. They have suppressed the Samoan *Times*.

A passenger on the British steamer, Warnue, who visited Mataafas camp, was placed under arrest but was subsequently released in compliance with the demand of the British Consul. A proclamation has been issued placing the Apia police force under German control. Mataafas followers number six thousand; they are strongly entrenched, and other Samoans are rapidly joining them. Upon the arrival of the steamer Richmond, she was boarded and searched by the Germans.

### The Dead Austrian Prince.

VIENNA, Jan. 31.—The body of the Crown Prince arrived on a special royal train from Baden this afternoon. Large crowds were at the stations along the route to Hopfburg, with doffed hats, and showed every mark of the deepest respect. The coffin was draped in velvet, embroidered with a gold cross. The bier was drawn by six horses and was followed by Prince Hohenlohe, Scillingfurst (Grand Master of the Imperial household), the Court Chaplain and other officers, with the Imperial Guards on each side of the remains, into the apartments of the deceased in Hopfburg. The papers all print mourning editions, and extol the dead Prince's virtues.

Prince Rudolf died in bed, after a fatiguing day's hunting, of heart disease, the cardiac walls being ruptured.

### To Freeze Out the Middlemen.

KANSAS CITY, Mo., Jan. 30.—A dozen or more cattlemen are in the city representing most of the larger cattle interests of the West. Their scheme is to combine for the purpose of handling their stock themselves, thus doing away with the expensive commission system. It is intended to form an organization for the purpose of marketing cattle, with headquarters at Kansas City, and branches at Omaha, Chicago, St. Louis and New York. Capital stock, to amount to $150,000, will be issued, and an endeavor will be made to get all the leading stockmen of the West to join.

### Again in Jail.

DUBLIN, Jan. 31.—William O'Brien was caged in the Clonmel jail to-day to undergo his four months sentence. He refused to remove his clothing and to don the prison garb, and the Warders did it by force, after a fierce struggle. His beard was shaved off in the same way. The struggle so exhausted him that the warders thought he was going to die, and they summoned the President.

### A Receiver Appointed.

NEW YORK, Jan. 31.—Judge Barrett to-day appointed a receiver for the North River Sugar Refinery, to act under the Court's orders. This grows out of the recent decision that this company acted illegally in joining the sugar trust.

### Coming Home.

LONDON, Jan. 31.—Minister Phelps sailed for the United States to-day. The members of the diplomatic corps and others accompanied him to the railway station here, and he was attended by the municipal authorities of Southampton to the dock.

### A Cabinet Guess.

CHICAGO, Jan. 31.—United States Senator-elect Washburn of Minnesota, who is here, going east, says from a talk with Harrison he, has reason to believe that California will be given the secretaryship of Interior, and it is probable Swift will get it.

### A Heavy Robbery.

LONDON, Jan. 31. — The country house of Henry White, Secretary of the American Legation at Ramsdale, was burglarized last night and robbed of $35,000 worth of jewelry.

### A Judicial Appointment.

WASHINGTON, Jan. 31.—The President to-day sent to the Senate the name of Decius S. Wade of Montana, to be Chief Justice of that Territory, vice McConnell resigned.

### Will not Leave Home.

NEW YORK, Jan 31.—Searle, the Australian champion, says in a letter, if Connor or anybody else wants to row him, they must come to Australia, as he will not go elsewhere.

### Proceedings of Congress.

WASHINGTON, Jan. 31. — Almost every desk in the House this morning was bedecked with red cambric parcels containing petitions in favor of the Sunday rest bill. On motion of Toole of Montana, the Senate bill was passed, granting the right of way through the Crow Indian reservation, to the Big Horn Southern Railroad.

The House then took up the Oklahama bill, as a special order.

SENATE.

The Presidents message in relation to Samoa and Corea, presented in the House yesterday, were read and referred to the Committee on Foreign Relations.

The House amendments to the bill to increase the pension of those who lost both hands was reported back favorably and concurred in.

The Senate resumed the consideration of the diplomatic and consular appropriation bill, the pending question being an amendment referring to Samoa. Reagan offered an amendment to insert the words "and for the protection of the rights of American citizens residing on said islands and preserve the neutrality and independence thereof." Hale objected to the last clause; the Senate should not declare an intention of the preservance of neutrality or to maintain the independence of any nation; that was for the executive. Sherman agreed with Hale, saying the words proposed to be inserted weakened rather than strengthened the statement of the matter. It was "fourth of July" language; no American has been hurt so far.

After a long and exciting debate, in which Senators Frye and Reagan took strong grounds in favor of protecting the independence of Samoa, and securing a harbor there for American ships, and, in which, it was intimated by them and by Hale, that the debate would come up again soon, in another and more serious form, (perhaps involving the United State and Germany). Reagan's proposed modification was withdrawn, an the amendments as reported from the committee on Foreign Relations were agreed to.

The amendment, raising to the rank of Ambassadors, the Ministers to England, France, Germany and Russia, was rejected; yeas 25, nays 26. The bill was passed, and the Senate then went into secret session on the British extradition treaty.

### Settled Policy.

WASHINGTON, Jan. 31.—The meeting of the Republican Senators to-day in caucus was productive of results in the adoption of a resolution insisting upon the admission as States, North and South Dakota, Montana and Washington. While it was regarded as expedient that Constitutional Conventions should be called in the two Dakotas to pass upon the new Constitutions, the Senators are resolved that another vote will not be required upon the question of division. There was a lack of unanimity, however, in regard to New Mexico, as Senators were not wanting in support of the adoption of a non-partisan policy which would include that Territory. It was urged on the other hand that, owing to the peculiarities of the people of New Mexico, the Territory was not fitted for admission. Statements contained in the petition from Albuquerque against admission, recently presented to Congress, were quoted with effect in this connection. The final decision of the caucus was that the Committee on Territories should frame a substitute for the House bill, and its rejection by the House would saddle that body with an unpleasant responsibility to to the people of the West. When this bill is made it will be pushed through the Senate with expedition, as it is the desire to reach a conference stage at the earliest possible moment of this session.

### Status of the Street-Car Strike

NEW YORK, Jan. 31.—Nearly all the street-car lines in the city this morning resumed the running of their cars, and some of them are running in considerable numbers.

Some of the strikers are "fighting drunk," and serious trouble is anticipated before night. Squads of militia are guarding the State arsenal and the Second Battery, where the gatling guns are stationed, to guard against a rumored attack contemplated by the strikers to secure arms and ammunition.

Many cars are running, and no trouble was reported up to noon.

Inspector Williams has ordered the police, in case they are attacked by the strikers, to shoot to kill.

A thousand strikers have congregated this afternoon near the stables of the Belt Line, and have erected barriers across the tracks and swear that no car will be allowed to run. Trouble is believed to be imminent, and the police reserves are ordered to concentrate here.

At 2 o'clock the mob near the Belt Line stables had increased to 3,000, and are reported to be tearing up the track. The police are preparing to charge them, and there is likely to be serious trouble.

### A Sound Proposition.

WASHINGTON, Jan. 30.—The American shipping and Industrial League began its annual session to-day. General Pitkin of Louisiana made the opening address, which was a strong argument in favor of Government aid to American shipping by subsidy and by discriminating in its favor. He regarded the re-establishment of American shipping as of the utmost importance to national prosperity.

### A Texas Tragedy.

ST. LOUIS, Jan. 30.—Charles M. Balch and wife, living near Walnut Springs, Tex., was found dead in bed yesterday. Both were shot through the heart and a revolver lay between the bodies. It is supposed that Balch shot his wife and killed himself, but no cause is assigned for the act. They had been married but a few months.

### No Change in Policy.

LONDON, Jan. 31.—All the papers comment on the death of Prince Rudolph. The general opinion is that it will not effect the Austrian policy.

Advices from Massowah say that the Handab tribe will ask the Italians for assistance against a threatened attack by Osman Digna.

### Lynched by Regulators.

NEW IBERIA, La., Jan. 30.—Shortly after midnight Regulators rode into town and hanged Jim Rosemond (colored) on a bridge. Cause unknown.

### Prominent Visitors.

INDIANAPOLIS, Jan. 30.—President-elect Harrison had a number of prominent visitors to-day, chief among whom was Hon. Anthony Higgins, Senator-elect from Delaware. Higgins spent over an hour in consultation with the President-elect. He suggested the name of General James H. Wilson of Wilmington, Del., for Secretary of War.

Louis Atheimer, of Pine Bluff, Ark., a wealthy planter, came to indorse and urge the recognition of General Powell Clayton for a place in the Cabinet. A sad incident marred his visit, for he is a next-door neighbor and bosom friend of Hon. John M. Clayton, who was assassinated last night at Plummersville, Ark., the news of which reached him early this morning. General Harrison was profoundly affected.

### The Chill Blast

That sets the naked branches a-quivering is not felt by the valetudinarian in-doors, but not all the covering that can be piled on his warm bed, nor all the furnace heat that anthracite can furnish will warm his marrow when chills and fever run its icy fingers along his spinal column. Hostetters Stomach Bitters is the thing to infuse new warmth into his chilled and aguish frame, to remedy the fierce fever and exhausting sweats which alternate with the chill. Dumb ague, ague ague cake, bilious remittent—in short, every known form of malarial disease is subjugated by this potent, and at the same time wholesome and genial medicine. Biliousness, constipation, dyspepsia, sick headaches, loss of appetite and sleep, kidney trouble, rheumatism and debility are also remedied by it Use it with persistence to effect a perfect cure.

**A Sore Throat or Cough**, if suffered to progress, often results in an incurable throat or lung trouble. "Brown's Bronchial Troches" give instant relief.

## BREVITIES.

### Local and General Intelligence.

Read W. N. Knox's ad. of pianos for sale.

The shipment of cattle for this point is very light at present.

A well-boring outfit for Honey Lake Valley, arrived here this morning from Aurora, Illinois.

Judge Haydon to-day received notice that a Mexican War pension has been allowed to Thomas A. Sanders of this town.

By a vote of 23 to 1 the School Board of Louisville, Kentucky, has decided that German shall not be taught in the public schools of that city.

On Tuesday evening Miss Cora Manning very agreeably entertained at her pleasant home, a party of her young friends.

Potts and wife, the supposed Carlin murderers, have been brought from Wyoming and lodged in the Elko county jail. They were accompanied by their 14-year-old son and 5-year-old daughter.

A well-known rancher wanted to bet yesterday that hay would be worth $12 in the stack before next April; he also wanted to bet that beef would go to 9 cents before that date. The GAZETTE thinks, however, that he is mistaken in both propositions. The outlook for better prices for beef is not very encouraging.

## PERSONAL.

Alf Doten was in town last evening.

John Boynton left this morning for Rye Patch.

Hon. G. W. Baker and wife are in Reno to-day.

W. J. Hanks of Wells was in town last evening.

John Forsythe of Long Valley is in Reno to-day.

Hon. P. N. Marker came in last evening from Lovelock.

W. N. Knox returned this morning from a two weeks' visit to California.

Mrs. John Fraser and Miss Mary Taylor will leave this evening for a two weeks' visit to California.

### A Brutal Tramp.

Frank Johnson, who takes pride in calling himself the "King of Tramps," was arrested yesterday for an unprovoked attack on a young man by the name of Louis Ills, who was severely beaten. Johnson had a hearing in Justice Young's Court to-day. He plead guilty, and was sent over the river for fifteen days. A good heavy ball and chain and a pick and shovel would be the proper medicine for this class of toughs.

### Effects of Light Literature.

Several boys at Lovelock, of from 12 to 14 years of age, recently organized a "bad" gang and commenced the robbery of their parents henroosts and kitchens, and becoming more bold, they stole a package of gloves from a store, for which they were detected and locked up in the calaboose. The youngsters are said to be penitent, and have about concluded to give up their plans for trying to live high without work.

### A Runaway.

Yesterday afternoon as B. A. Moore and little daughter were riding along Commercial Row in M. J. Curtis's buggy, the horse suddenly became unmanageable, ran into a delivery wagon and capsized the carriage, throwing the occupants out. The little girl was somewhat but not seriously bruised. The runaway crossed the track and scattered the overturned buggy along North Sierra street.

### A Public Meeting.

A public meeting is hereby called for Saturday night, February 2d, at the Courthouse to discuss the sewer and jail proposition and also to discuss the bonding of the town for fire purposes.

R. S. Osburn, R. W. Parry, B. F. Bobo, Martin Ward, W. O. H. Martin and many others.

### An Improbable Story.

Potts and wife, who were recently brought from Wyoming, charged with the murder at Carlin of an old man by the name of Fancett, now claim that deceased committed a rape on their little girl, and when the crime was discovered he suicided, and they secretly buried the remains to cover their child's misfortune.

### Reno Delegates.

Miss Eva Barnes and Mrs. Ellen Wallace have been elected by the Women's Relief Corps as delegates to the W. R. C. Convention to be held in Stockton, Cal., on February 14th, 15th and 16th, with Miss Fannie Barnett and Mrs. Elizabeth Evans as alternates.

### Reduced to the Ranks.

Allen Kinkead was reported by Captain Claud Jaques of the University Cadets, instead of Lieutenant Lee, for insubordination. Kinkead was reduced to the rank for his lack of courtesy.

### A Much-Needed Improvement.

A walk from the corner of Front street to the west walk of the iron bridge is much needed; in fact, there is no place in town suffering more for a good sidewalk. The Commissioners should look after it at once.

### It Goes.

**What's the matter with the Reno GAZETTE? It comes very seldom nowadays.**—*Carson Tribune.*

It is put into the Reno Postoffice every evening at 6 o'clock, and why you don't get it is a mystery.

### No Glanders.

T. K. Hymers says he has investigated the matter, and is able to state that there are no glanders among the horses of this section.

### Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Hodgkinson & Co., dec2dwly

This is the season of the year when the raw, cold winds create sad havoc with the hands and complexion. Soft, white hands and a clear "peachy" complexion can be assuredly preserved by the frequent application of Dalzell's Specific. If rubbed into the skin well it leaves no greasy surface. The skin absorbs it. Sold by William Pinniger.

## AN OWYHEE HOMICIDE.

### A Fatal Affray Between two Sheepmen.

A correspondent of the *Silver State* writing from Jordan Valley says that on Sunday morning, January 20th, a quarrel took place at a sheep camp three miles below the ferry, at the crossing of the Winnemucca road on the Owyhee, between W. J. Hughes and N. O. Nelson, which resulted in the killing of the latter. Mr. Hughes is in Jordan Valley in charge of Deputy Sheriff Hicks, and tells a straight story which the people seem disposed to believe. He says Nelson charged upon him with a knife just as he was starting out with the sheep, and to save his own life he fired at him with a shot gun, which he was taking out with him as was his custom. Nelson was a Swede, unmarried, between 25 and 30 years of age, and Hughes is 66 years old. He was to have had a hearing before Justice Athearn last Saturday.

### A Controversy Settled.

EDITOR GAZETTE: In view of the misapprehension which I am assured exists in certain quarters in regard to my authority to act for and to represent the American Well Works, I have deemed it best, in justice to myself, to request that you make public through your columns the following letter of instruction in relation thereto:

AMERICAN WELL WORKS,
AURORA, Ill., Jan. 18, 1889.

*E. I. Wood, Beckwith, Cal.*—DEAR SIR: Yours of January 10th is noted. We are glad to note that you are stirring up the water question in your country. There is one thing we feel in duty bound to speak about, and that is that Walter Ede is, we understand, advertising in two leading papers in Reno, Nev., and vicinity, and may claim a commission on your sales unless you are careful to not interfere with any of his prospective sales. We have given Mr. Ede no exclusive agency, and can give none. Whatever business he works up he should get the commission upon, and whatever business you work up you should have the commission.

We wish you to go ahead and sell all you can, and at the same time avoid interfering with Mr. Ede's sales, if he has any on the string. He has not made many sales, and whether he is attending to the matter at all at the present time we are not advised. Respectfully,

AMERICAN WELL WORKS.
T. R. JONES,
Commercial Traveler.

I propose to continue my sales, subject to the above restrictions, until a better arrangement can be made, and should I visit any section whose residents consider themselves on Mr. Ede's string they will kindly notify me to that effect, and I shall not be so ungentlemanly or so unbusiness-like as to interfere. Neither shall I sneak around and lay claim to a commission on his sales. Trusting that I shall have a continuance of the kindness, confidence and esteem with which I have met here, and a fair proportion of your trade in our line, I remain, very respectfully, yours,

E. I. WOOD,
Agent American Well Works.

### Concluded to Skip.

An Indianapolis dispatch of the 29th inst. says: It was discovered to-day that Joseph A. Moore, the half-million-dollar embezzler from the Connecticut Mutual Life Insurance Company, probably fearing arrest and imprisonment, had concluded to fly to a place of safety. His attorney admitted to-night that Moore had gone to Canada, but to what part is not known. Investigation of his books proceeds, but the amount of shortage has not yet been increased above the original figures.

### Killed the Pair.

The Walker Lake *Bulletin* of the 30th inst. says: News reached town yesterday that Louis Sammons, a Mono Lake rancher, and a Piute squaw who lived with him, were both shot and killed by a jealous Indian, the discarded lover of the murdered woman. The murderer is still at large. Sheriff Morgan and a posse from Mono county are in pursuit of the fugitive. There are no details.

### Bought by Renoites.

The Winnemucca *Silver State* says that Frank Dorman, an indefatigable prospector, has sold one of his finds, the Little Gem mine, in Alpha canyon, near Rye Patch, for $2,000 in cash. The purchasers are J. W. Boynton, C. C. Chase and John Fraser of Reno, and W. T. Hales of Rye Patch.

### Railroad Connection.

The Board of Trustees of the Seattle & Southern Railway Company held a meeting in Seattle Tuesday and organized. It is well understood at Seattle that the road is closely allied to the Southern Pacific, and that it is the intention to make Seattle the practical northern terminus of that line, connection being made at Portland.

Oregon is one of the most productive States in the Union. Its vast mineral regions contain gold, silver, copper, iron and coal. Its immense tracts of grazing lands support thousands of cattle and sheep, and its extensive agricultural regions produce all the cereals in abundance, the yield per acre being, in some instances, the largest in the world. Among the useful and valuable products of the Webfoot State may be mentioned Oregon Kidney Tea, which has proved a boon to thousands afflicted with pain in the back and kidney difficulties. It is purely of vegetable composition and never fails. Sold by William Pinniger.

### Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made." Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles; was given up by doctors; am now in best of health." Try it. Sample bottles free at Hodgkinson's drug store.

Coasting has been prohibited at Ogden, Utah.

### Entitled to the Best.

All are entitled to the best their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to cleanse the system when costive or bilious. For sale in 50c and $1 bottles by all leading druggists.

The Sacramento river was never so low as now.

# THE MARCH OF PROGRESS!

## OUR LATEST IMPROVEMENTS!

"Competition is the Life of Trade," and if you have not seen our latest improved goods you cannot imagine how lively trade is, or how hard our competitors have to work to keep within sight of us. 'Ask your retailer for the JAMES MEANS' $3 SHOE, or the JAMES MEANS' $4 SHOE according to your needs.

Positively none genuine unless having our name and price stamped plainly on the soles. Your retailer will supply you with shoes so stamped if you insist upon his doing so; if you do not insist, some retailers will coax you into buying inferior shoes upon which they make a larger profit.

Such has been the recent progress in our branch of industry that we are now able to affirm that the James Means' $3 Shoe is in every respect equal to the shoes which only a few years ago were retailed at eight or ten dollars. If you will try on a pair you will be convinced that we do not exaggerate. Ours are the original $3 and $4 Shoes, and those who imitate our system of business are unable to compete with us in quality of factory products. Our lines are also the largest manufacturers in the United States.

One of our traveling salesmen who is now visiting the shoe retailers of the Pacific Coast and Rocky Mountain Region writes from there as follows:

"I am more than satisfied with the results of my trip. I have thus far succeeded in placing our full line in the hands of 'A No. 1' dealers in every locality I have visited." He goes on to say, "This is a splendid region for us to sell shoes in. Most of the retailers are charging their customers at retail just double the prices which the shoes have cost at wholesale. The consequence is that the people who wear shoes are paying six or seven dollars a pair for shoes which are not worth as much as our JAMES MEANS' $3 and $4 SHOES. Our shoes with their very low retail prices stamped on the soles of every pair are breaking down the prices which have hitherto ruled in the retail markets here, and when a retailer puts a full line of goods in his store they at once begin to go off like hot cakes, so great is the demand for them."

Now, kind reader, just stop and consider what the above signifies so far as you are concerned. It assures you that if you keep on buying shoes bearing no manufacturers' name or fixed retail price stamped on the soles, you cannot tell what you are getting and your retailer is probably making you pay double what your shoes have cost him. Now, can you afford to do this while we are protecting you by stamping our name and the fixed retail price upon the soles of our shoes before they leave our factory so that you cannot be made to pay more for your shoes than they are worth?

Shoes from our celebrated factory are sold by wide-awake retailers in all parts of the country. We will place them easily within your reach in any State or Territory if you will invest one penny in postal card and write to us.

# A WONDERFUL REMEDY.

The value of Ayer's Cherry Pectoral, in the protection it affords from the dangers of pulmonary disorders, cannot be overestimated. Mr. C. K. Philips, Pittsburg, Pa., writes: "About three years ago I had severe Laryngitis, which resulted in chronic hoarseness. By the use of Ayer's Cherry Pectoral I have since entirely regained my health." Mr. Henry Russell, Excelsior Printing Co., New York, writes: "Influenza became epidemic in my neighborhood. Several members of my family suffered severely with it, all of whom took Ayer's Cherry Pectoral, and were cured by it in a few days. It is a wonderful medicine for Influenza. Too much cannot be said in its favor."

E. M. Sargent, 41 Andover st., Lowell, Mass., says: "I commenced using Ayer's Cherry Pectoral about the year 1842, as a family medicine, for Coughs and Colds, and have always kept it in my house since that time. I consider it the best remedy that can be had for these complaints." Dr. J. B. Robertson, Clayton, N. C., writes: "I have used Ayer's Cherry Pectoral, in my family and practice, for a number of years, and have no hesitation in recommending it. It is an admirable preparation, and well-qualified to do all that is claimed for it." E. J. Styers, Germanton, N. C., writes: "Ayer's Cherry Pectoral is the best Cough preparation I ever saw. It gives instant relief."

## Ayer's Cherry Pectoral

It strikes at the foundation of all Pulmonary diseases, is without a rival as an expectorant, and is a sure cure for the most obstinate Coughs and Colds. L. Garrett, Texana, Texas, writes: "I have used Ayer's Cherry Pectoral in my family for twenty years. For throat and lung diseases, I consider it a wonderful remedy."

The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it and be prepared to arrest it as soon as the first symptoms appear. True croup never comes without a warning; a day or two before the attack the child will become hoarse, and that symptom is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as the hoarseness or cough appears, all danger and anxiety may be avoided; it has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For sale by Osburn & Shoemaker.

**The Tobacco Pipe in China.**

The Chinese use a handsome little water pipe made entirely of brass or silver. It is all in one piece except the bowl and neck, which is merely a tube with an upper chamber for the tobacco. The merest pinch of long cut tobacco fills the bowl, and one filling is only expected to provide one or two whiffs. The body of the pipe contains a neat compartment for tobacco. The long, clawlike nails of the Celestial are used in reaching in this little box for a pinch of tobacco as deftly as a pair of tweezers. Long strips of prepared paper are used for lighting. This paper burns slowly, and when required for lighting the pipe is blown into a flame by a peculiar puff. Any Celestial man, woman or child can produce this flame with a single puff, but a European acquires the same ability only by considerable practice. As each filling produces only a couple of puffs, the pipe has to be refilled over and over again to obtain satisfaction. Every time a pinch is smoked the remnant is blown out by lifting the tube and blowing vigorously through it from the lower end. The rapidity with which a devotee of this pipe fills it, puffs the paper into a flame, lights the tobacco, blows the paper out again, lifts the tube, blows out the refuse, fills it again, etc., is quite a remarkable performance. The common Chinaman uses a pipe of primitive pattern, merely a slender point of bamboo, with a hole bored in the side near the closed end. A pinch of tobacco is laid on this hole, affording one or two whiffs.

**How to Eat Cheese.**

If you are not very fond of cheese, and many people are not, then make a mixture of pepper and salt, cut a piece of cheese into a strip as long as your finger, and dip it into the mixture. Eat this, and our word for it, you will want more. The fresher the cheese the better it will taste by the addition of pepper and salt.

## THE HOTEL DINING-ROOM.

**Observations Made by a Man Who Knows How to Use His Eyes.**

We are now in the dining-room of a Pretty Good Hotel, says a writer in the Detroit *Free Press*.

We can see seven-nine-ten-twelve-fifteen, about nineteen men, picking their teeth while they wait for dessert!

Who are these men!

They are the men who keep this hotel running. They are drummers.

Did you hear that distinguished-looking lady remark to her escort that this town seems to be pretty common!

While you are watching the waiter girls as they burst out of the kitchen one by one you might also glance from time to time at this distinguished-looking lady and see her eat.

Does she carry food to her mouth with her fork!

Yes, and with her knife, too; knife and fork alternately. See! Meat on fork, potato on knife; cucumber on fork, cold slaw on knife—doesn't she do it well!

And who is this lady!

She is a leading lady in a very small theatrical company playing in the town one night.

See that nice waiter girl over there leaning against the wall!

Does she see us!

No, not yet.

There! Now she sees us and comes to take our order.

We will have some soup 'n' fish.

When she had brought the soup and fish the nice waiter girl will give us some butter and some crackers and some salt and pepper in a dainty, graceful manner; then she will slightly move our knife and fork and fix things all nice, and then she will stand quietly by our chair, clear her throat and say in a gentle, subdued tone, but very rapidly:

"Roas' muttin' *roas' beef browngravy* roas' chicken *roas' lamb* loinerveal stuffed *boil ham* tongue *queen fritters* col' meats." The italics are hers. They indicate the dishes they really have. The others are called off really for effect—to make drummers say they have a good table. We know we shall be uncertain what she said, all except the italics, so we will just order those, and all will be well.

See how the beautiful leading lady drinks water, with her forefinger in the tumbler.

Did you see that nice-looking couple over there at the first table, this way from the second window but one!

Why do they sit there so serious and abstracted, speaking never a word to each other!

Because they are just married.

Though they're quite still they love each other dearly.

That freckled young man has just had a finger-bowl put before him and he doesn't know what to do with it. Perhaps he thinks: Can this be soup come again!

The nice waiter girl has just kicked open the kitchen door and there she comes bearing down on us with a heavy tray. We will stop looking around and see what she has forgotten to bring us.

## PARLOR-CAR SPIES.

**Work of the Regular Watchers of Pullman Conductors and Porters.**

Special agents go every week or two on each train that runs with the Pullman Palace Car Company's cars. They are the company's check on the conductors and porters. The special agents are sent from the company's headquarters and are known only there. They correspond to the spotters of street-car companies, though they are better paid and have a more pleasant time of it, as they have nothing to do but to travel around, watch what is going on, and report it.

A special form is printed by the company for the use of these agents. A copy of it came into the hands of a New York *Sun* reporter. It is Form 109 of the company's blanks, and a number of things are to be filled in. These items include the line, the car, the conductor's name, the porter's name, from where to where, the time of departure, the time of arrival, and the route, the number of the special agent's ticket, the office he bought it at, the cost, and the number of his check. These are required as a check on him and his expenses.

After this prelude he is to tell the condition of the ventilation of the car, whether the hand railings are wiped, the platforms swept, and the stepping box put out at important stations. The agent must observe whether the porter uses the stepping box and wears his jacket in making berths and in putting them up again, and whether the conductor assists the porter when the passengers are in a hurry to go to bed. The technical expression of the report is: "If Conductor assists Porter in making up and down berths when passengers are in hurry to retire." Conductor and Porter in the report are spelled with capital letters, as becomes men of importance. The agent is to watch if soiled linen is exposed unnecessarily, and if the conductor or porter drink, played cards, smoke, or take naps when they ought to be awake. If the conductor or porter pays visits to other cars or leave their own car for a moment, the special agent is to report them. They are also to be reported if they are unduly familiar. The porter is to be reported if he does not occupy a position commanding a view of the berths while he blacks shoes, and the conductor is to be reported if he allows train employes to remain in the body of the car. Trainmen must stay in the ends of the car.

One side of the folded report is to tell these things. On the other side is a blank for a detailed statement of every berth in the car, both upper and lower. The berths occupied by the conductor and porter are to be marked specially. The occupant of each berth is to be given and the distance he travels. At the foot is a marking space for the manner and efficiency of the conductor and the porter. When the blank is filled out it is turned in at the company's office. It is not likely that the special agent can get much sleep if the train makes many stops. He would have to be watching the passengers to see who got on and off.

**Heads in Different Races.**

Normal human skulls, according to the measurements of Prof. Flower, range in size from 2,075 cubic centimeters down to 960 cubic centimeters, the largest average capacity being found in a race of long, flat-headed people on the west coast of Africa. The Laplanders and Esquimaux, although small in stature, have very large skulls, the average measurement of the latter being 1,546. The English skull, of lower grades, measures 1,542; the Japanese, 1,486; the Chinese, 1,424; the modern Italian, 1,475; the ancient Egyptian, 1,464; the Hindoo, 1,306.

**Corrected by the Butler.**

It is an English lady of high position who tells the story. Dining out the other night she saw in the hall as she went in a servant who for a long time in earlier days had been butler to the late Lady Waldegrave, whom she had often visited. She spoke to him, an act in no way remarkable among people between whom and their servants there is margin enough. At dinner there were ortolans and this lady's neighbor asked whether she cared for them. "Oh, yes," answered she; "I am fond of all delicacies. I would dine, if I could, like Nero on nightingale tongues." As she finished the ortolan and the sentence she became aware that Lady Waldegrave's butler was leaning over in that respectful attitude proper to the British servant handing a dish, and he murmured: "I beg your pardon, my lady, but Cinque says it was Vitellius."
